Re: Victoria Manning
CASE NO.: 1:21CR00048-16
BOND VIOLATION – NO ACTION REQUESTED

Honorable Magistrate Judge:

On July 19, 2022, the defendant reported to the pretrial services office. During the visit, officer attempted to collect a urinalysis, and observed a device in the defendant's vaginal area. Officer discontinued the urinalysis collection and asked the defendant to remove the device, to which she complied.

A few hours later, officer collected a urinalysis, and the results were presumptively positive for amphetamines. The defendant admitted to using methamphetamine while alone on Sunday, July 19, 2022. Specimen has been sent for confirmation testing, and the results are pending.

One of the defendant's conditions of release is to submit to substance abuse treatment which may include evaluation, testing, education, in-patient treatment, or out-patient treatment and/or participation in support groups as directed by Pretrial Services.

The defendant currently submits one random drug test monthly.

This officer respectfully recommends that the defendant attend intensive outpatient individual substance abuse treatment sessions weekly and random drug testing be increased. Additionally, the defendant was admonished and directed to refrain from use of illicit substance use and report for all treatment appointments and urinalysis testing.

Assistance United States Attorney, Dan Guess has been apprised of this matter and concurs with the recommendation of Pretrial Services.

Respectfully,

Kyona Stubbs
U.S. Pretrial Services Officer
